

Snow In The Sierra Nevada In 2017: Historical Context and Trends

Tuesday, May 23, 2017, 7-8 PM, doors open at 6:30 PM
Page Center at SNARL, 1016 Mt Morrison Rd, Mammoth Lakes, CA

Dr. Jeff Dozier, Distinguished Professor Snow Hydrology, Earth System Science, Remote Sensing at the Bren School of Environmental Science and Management at University of California, Santa Barbara

Jeff Dozier has been on the UCSB faculty since 1974 and was the founding dean of the Bren School. He has led interdisciplinary studies in two areas: one addresses hydrologic science, environmental engineering, and social science in the water environment; the other is in the integration of environmental science and remote sensing with computer science and technology. From 1990-92, he was the senior project scientist for NASA's Earth Observing System, when the configuration for the system was established. Among Dr. Dozier's honors are the [2009 Jim Gray Award](#) from Microsoft for his achievements in data-intensive science and his selection as the [2010 Nye Lecturer](#) for the Cryosphere group of the American Geophysical Union. A long-time backcountry skier, mountaineer, and rock climber, he helped lead six expeditions to the Hindu Kush range in Afghanistan and has a dozen first ascents there. Come on out to SNARL on Tuesday evening, MAY 23 to hear Dr. Jeff Dozier share his incredible expertise, knowledge and stories!

Please arrive early to park, secure a seat, snack and mingle. Seminars are geared to adult audiences, however young people are encouraged to attend and well-behaved children are welcome. Visitors are not allowed to bring dogs to SNARL, so please leave pets at home. This week's seminar sponsored by the East Side Bake Shop in Crowley Lake, CA.
